TWIN EAGLES GRILL BASE BASE ASSEMBLY & GRILL HEAD INSTALLATION

TEGB30SD-B SHOWN

MODELS:
TEGB30-B
TEGB30SD-B
TEGB36-B
TEGB36SD-B
TEGB42SD-B
TEGB54SD-B

ASSEMBLY INSTRUCTIONS

1. Install casters with brakes (A) at the front of the base and casters without brakes (B) at the rear and secure them with nuts (C).

2. Install shelf brackets (D) and secure them with screws (F) and side shelves.

3. Remove hex head screws (G) and flat-washer (H) using a 5/16" wrench and place the grill head into the cart.

4. Install the hex-head screws (G) with flat-washer (H) back into place by initially hand tightening them. Then use the 5/16" wrench to tighten the screws completely.
5. Fasten the BBQ grill at the top-rear corners using the Phillips screws (I), reference picture no. 2

(F) Flat head screws
(qty: 8)

(H) Flat-washer
(preinstalled w/ hex
screw)
(qty 2)

ADDITIONAL INSTRUCTIONS

TO SECURE POWER TRANSFORMER

All B-Series grill models come with a power transformer which is concealed in a stainless steel box with an attached power supply cord. This transformer must be secured in a dry location and away from excessive heat.

1. In a base cart application, 2 mounting screws with nuts are provided at the bottom-right-rear corner of the cart. If not provided, drill 2 holes using the transformer box as a template. Secure the transformer box as shown.
2. Plug-in the transformer's power cord to the properly grounded GFCI 120V outlet.
3. Connect the transformer harness to the harness located at back of the grill.

- **FOR C-SERIES GRILLS THIS DOES NOT APPLY.**

SIDE SHELF

Side shelf UP (User position): Hold the side shelf from the end, flip it up and push the side shelf down at the bracket area. Be sure that the side shelf has lock down before placing items on the shelf.

Side shelf DOWN (Non-users position): Hold the side shelf from the sides around the bracket area, pull it up and then flip it down.
